

SEASALTS TABLE LAMP.

This project is the result of ongoing experiments exploring materials coming from the marine environment. When you place an object in a salty aquatic place the salt slowly crystallises around the object in what appears as magic. The sea salt lamps design was inspired by this incredible natural process.

The lampshades are made in a unique technique using a mixture of sea salt and clear resin. In a mould, the salt is slowly absorbed by the resin and crystallises into the delicate and distinctive lampshades, emerging with rough and natural textures.

When lit, the light glows through the salt creating a soft & ambient light.

Category-	Table lamp
Materials-	Sea salt, Clear resin and Metal
Dimensions- (cm / in)	Width: 13 cm - 5.1 in Height: 26 cm - 10.2 in
Colors-	Matt black
Bulb specification-	G4 LED * 2
Input voltage-	120 v / 240 v
Product weight-	~ 1 kg

Cleaning instructions -

Before cleaning, light must be turned off and unplugged from the main electricity. Whilst cleaning the lamp please take extra care not to use force on the fitting. Use a soft and dry dust cloth and gently go over the product.

All designs are protected under copyrights law.
